SCHEUCHER®

# THE FOREST IS OUR ORIGIN

Every tree that grows in our forests, every trunk, every piece of wood and therefore every parquet tells a story and is as individual as we are – is has its own unique fingerprint.

This individuality and uniqueness of the material means that our work is always exciting and varied. It is our passion to produce parquet flooring for your home from a naturally grown tree.

Assets like its natural origin as well as its processing to the most exacting and environmentally friendly standards make the range an outstanding quality product. A quality product that delivers what it promises – this is what we vouch for with our good reputation, our understanding of wood as a natural product and our Scheucher warranty, which guarantees the full functionality of our hardwood floors for 30 years.

# HE SUPPLIES US THE WOOD, FROM WHICH YOUR PARQUET DREAMS ARE MADE OF

## NATURAL & HEALTHY

Wood is a naturally grown raw material and no other material stands for such a naturalness and liveliness. These special characteristics make each of our parquet floors to one of a kind. Its warmth, vividness and cozy aura are real boons for all of your senses. Thanks to its moisture-regulating impact on the interior air, wood additionally ensures a sustainably healthy room climate.

## TIMELESS & MODERN

Wooden floors always hit the taste of the time since centuries. There are hardly any limits on design possibilities and due to the cooperation with interior designers, designers and the furniture industry, our assortment is constantly adapted to the latest furnishing trends.

## HYGIENIC & EASY TO CARE FOR

Germs, mites and other troublemakers don't stand a chance at parquet. Wood also has a natural antistatic effect and doesn't attract dust – this combination makes our parquet particularly long-lasting and easy to care for. Vacuuming and, if necessary, wiping up damp is absolutely sufficient for the regular cleaning.

## GUARANTEED MADE OF REAL WOOD

An invaluable decision-making aid, when selecting your floor, is the quality seal „Real Wood“, which is valid throughout Europe. It marks real wood and differs from all other wood-imitating floor coverings. Moreover the trademark stands for an excellent life cycle assessment of real wood. According to the Europe-wide valid standard EN 13756, parquet is defined as „wooden floor with a wear layer thickness of at least 2.5 mm before installing“.

## MADE FOR GENERATIONS

Parquet is an investment for life. We particularly recommend our SEDA parquet floors, which are treated with natural oils and waxes. The oil deeply penetrates the wood and is cured with oxygen (oxidative). For the finish we use a special natural oil, which makes your floor ready for occupancy. The surface is open-pored, breathable, warm to the feet, natural and prevents static charge. If necessary, scratches and damages can be repaired partially without any problems – so your floor stays beautiful for generations to come.

## HEALTHY LIVING ROOM

SEDA natural matt, oiled and waxed  
TENSEO MATT natural matt, sealed

**SEDA** Your parquet is treated with natural oils and waxes according to century-old traditions to retain its original lustre. These floors are particularly beautiful with their silky matt surface with natural texture and intensive wood color. Open-pore surface finishes with breathable materials mean you are guaranteed a healthier interior climate and your home is enhanced by this touch of nature.

**TENSEO** This high-quality up to 7 layers consisting sealing system ensures your wooden flooring retains its natural appearance and gives a special flair to any room. The beautifully silky sheen gives the wood an exclusive look while at the same time making it resistant to damage and thereby considerably extending the life of your parquet flooring.

## STRUCTURE

VALLETTA natural

### VALLETTA

lends parquet flooring a natural character and subtle roughness, as it is brushed and has a bevel.

# CARE & MAINTENANCE.

A specially developed range of cleaning and care products enhances the natural hues of my wooden floor. These care products protect and preserve the beautiful sheen and individual character of the wood.

## THE GOLD OF THE FOREST

Our hearts beat for parquet - „the gold of the forest“ - as we like to call it. This is why we constantly endeavor to create innovative products with the greatest care in order to be able to offer you first-class quality products that will give you pleasure over many decades.

To us at least of equal importance is, what's happening with our „gold“ once it left our factory and is finally brought to your homes.

For that reason we were also intensively engaged in developing the perfect care and maintenance for your parquet floor once it requires an extra portion of care.

It is usually sufficient to clean your floor using a vacuum cleaner or a soft broom.

If you require more detailed information, please refer to the Scheucher care instructions or under [www.scheucherparkett.at](http://www.scheucherparkett.at).

# DURABLE FLO\_R.

TIP: To preserve the beautiful look of your parquet floor and protect its surface please avoid mechanical damages wherever possible. To avoid scratches and serious damages it is recommended to place mats in the entrance area and remove sand and grit with a broom immediately. Equip your movable furniture with felt gliders and use special rolls for wooden floors on office chairs. Do not leave any wet items on your parquet floor. To assess results properly, try out care and/or cleaning procedures in an inconspicuous place before applying the product.

# CARE & MAINTENANCE TENSEO

## BONA SPRAY MOP

The Bona Spray Mop enables you to clean and maintain your wooden floor in a sweep. Ergonomic and simple to use, the Spray Mop is quick to assemble and refill with the specially developed Bona floor cleaner cartridge. Forget filling up a bucket and adding concentrate - just spray and clean! No polishing required.

**BONA REFRESHER**  
For the first care and further cleaning of tenseo classico parquet.

**BONA POLISH MATT**  
For the first care and further cleaning of tenseo matt parquet.

# CARE & MAINTENANCE SEDA

## CAREboy

Multifunctional, cordless waxer and cleaner for comfortable and efficient cleaning and care of your oiled/waxed flooring.

**PFLEGESET**  
1l Parquet Care,  
1l Parquet Cleaner,  
Mop cover,  
Care instructions

- + Cordless design
- + Minimal water consumption
- + Simple cleaning and care
- + With built-in lighting

**PARKETT CLEANER**  
Waterbased cleaner with integrated care system for routinely damp cleaning of parquet floors. For sensitive damp cleaning of parquet floors leaving a thin oil-protection after cleaning.

**PARKETT CARE**  
Waterbased oil care for simple regular maintenance of oiled/waxed floors. VOC-free and fast drying, manual or machine application.

# ACCESSORIES

The professional system for a greater added value. Measure stairs simply digitally. Without stencils. Simple data transfer from job site directly to Scheucher.

## STAIRBOX

**STAIR**box is a system, that simply enables the digital measurement of stairs and staircases as well as – in addition – the direct purchase of parquet elements ready for assembly from Scheucher (data transfer ex site). This is how the service spectrum of every floorer experiences a great expansion and customers get their floor and stairs from professional hands.

## STAIR TREADS

**STAIR**box makes it possible to create all types of stair treads quickly and easily – irrespective of the basic form or configuration – with the same appearance as the parquet.

ALLE  
WOOD TYPES

## FASCIA BOARDS

What is more, fascia boards that are identical to the installed parquet and blend harmoniously into the overall view are no longer a problem, thanks to **STAIR**box.

# FEEL-GOOD ROOM CLIMATE

This „feel comfortable“ chart for indoor room climate demonstrates the combination of relative humidity and room temperature where the overwhelming majority feels comfortable in indoor rooms.

- Optimum range
- Temporarily acceptable range
- Inappropriate indoor climate for humans and wood

EN 15251:2012 „Input parameters for indoor climate“ recommends a seasonally caused relative humidity of approx. 30 % to 65 % for a healthy room climate. In this range, natural characteristics of wood like gaps, minor cracks or warpage of your parquet floor may occur in a moderate degree. In case of long-term deviations, health impairments or excessive changes in the appearance of your hardwood floor, like big deformations, big gaps and cracks may occur. Wood as a natural material reacts more sensitively to changes of the relative humidity than to changes of temperature.

**Therefore the key to success lies in the observance of an optimum relative humidity of your indoor air!** This generally requires periodic cleaning and maintenance of your parquet floor as well as an appropriate air humidification in the heating season. We therefore recommend cold humidifiers with an integrated sterilization system. The installation of Fidbox records your climate above and under your parquet floor over many years and can be conveniently monitored by mobile app. Paying attention to these important factors will guarantee pleasure over decades with your high-quality parquet floor from Scheucher.
